Conditions Aggravated By Exposure:
Not known.

SECTION 4. FIRST AID MEASURES

Breathing:

No specific treatment is necessary since the material is not likely to be hazardous by inhalation. If exposed to excessive levels of vapors or mists, remove to fresh air and get medical attention if cough or other symptoms develop.

Skin:

Wash with soap and water. Get medical attention if irritation develops or persists.

Eye:

Immediately flush eyes with plenty of water for at least 15 minutes, holding eyelids apart. Get medical attention if irritation or other symptoms occur.

Swallowing:

Get immediate medical attention. Never give anything by mouth to an unconscious person.

SECTION 5. FIRE FIGHTING MEASURES

Method.....	pmcc	
Lower Explosive Limit.....	N/A	
Upper Explosive Limit.....	N/A	
Auto Ignition Temperature....	840 deg F	
Extinguishing Media.....	CO2, dry chemical, alcohol foam, water spray	

Firefighting Procedure:

Evacuate area and fight fire from safe distance. Wear pressure-demand self-contained breathing apparatus (MSHA/NIOSH-approved or equivalent) and full protective gear.

Special Firefighting Procedure:

As with any fire, toxic gases, vapors, and fumes can be generated. Use pressure-demand self-contained breathing apparatus (MSHA/NIOSH approved or equivalent) and full protective gear. Using water can cause frothing with increasing fire intensity.

Unusual Fire and Explosion Hazards:

None known.

Sensitivity To Explosion:

None expected by mechanical impact or static discharge

Conditions Of Flammability:

Material may burn, but does not ignite readily. Avoid high temperatures.

SECTION 6. ACCIDENTAL RELEASE MEASURES

General:

Minimize entry of material into sewers and drainage systems. Refer to permit discharge limitations if applicable. Isolate spill area, preventing entry by unauthorized persons. Prevent skin/eye contact.

Small Spill:

Sweep or scoop material into a chemical waste container. Avoid raising dust. Scrub area with detergent and water.

Large Spill:

Shut off spill if safe to do so. Clean up spills immediately, observing precautions in Protective Equipment section. Vacuum or sweep up material and place in a disposal container.

SECTION 7. HANDLING AND STORAGE

Handling:

Although this material does not present a significant skin or eye concern, skin and eye contact should be avoided as good industrial practice. Wearing of protective gloves and eye protection is recommended. Wash hands and contaminated skin after handling.

Storage:

Store in a cool dry place away from strong oxidizers and acids.

SECTION 8. EXPOSURE CONTROLS/ PERSONAL PROTECTION

Exposure Levels:

None established.

Engineering Controls:

Use process enclosures, local exhaust ventilation, or other engineering controls to control sources of dust, mist or vapor.

SECTION 8. EXPOSURE CONTROLS/ PERSONAL PROTECTION ... continued

Respiratory Protection:

Use a NIOSH/MSHA approved air purifying respirator as needed to control exposure. Consult with respirator manufacturer to determine respirator selection, use, and limitations. Use a positive pressure air supplied respirator for uncontrolled releases or when air purifying respirator limitations may be exceeded. Follow respiratory protection program requirements (OSHA 1910.134 and ANSI Z88.2) for all respirator use.

Eye/Face Protection:

Use safety glasses. Where contact with the eyes is likely, use chemical goggles. Use a face shield as needed.

Skin Protection:

Use impervious gloves. Use clean protective body-covering clothing as needed to minimize contact with clothing and skin.
