Give your skin the nourishment it needs—without the mess!

This solid lotion bar easily glides onto your body and provides caring comfort to dry or dehydrated skin. With its on-the-go format and energizing scent, this product is the perfect travel companion for moisturization in a pinch.

## KEY INGREDIENTS

- **PLANTASENS OLIVE LD** to provide a premium sensory
- **PLANTASENS COSMETIC WAX A4**, our fully natural and cost-effective structuring agent
- **PLANTASENS PRO LM**, a versatile and moisturizing emollient

## PROCEDURE

1. Combine phase A and heat to 70 – 75C, mixing uniformly
2. Add in phase B one at a time. Mixing uniformly between additions
3. Cool to 60-55C, then add phase C one at a time. Mix uniformly between additions
4. Pour into mold at 55C to 50C
5. Let cool

## APPEARANCE

Solid white bar
