

Glass Hair

Anti-Frizz Coat Spray

#18184-1

Experience weightless, long lasting frizz control with this advanced anti humidity spray. Powered by the high performance combination of **Silsoft™ CLX E+** for exceptional frizz protection and **Silsoft™ Q PMF** for velvety softness, this formula keeps hair smooth, sleek, and manageable- even in challenging conditions.

To support stronger, healthier looking hair, **Genencare® OSMS BA** delivers dual-action benefits—helping to reinforce hair fibers while protecting and moisturizing the scalp. Completing the formula, **Actiphyte™ Red Clover Blossom GL** brings botanical richness with traditional benefits linked to reducing thinning, promoting fuller-looking growth, and supporting overall scalp wellness.

A sophisticated blend of science and botanicals—engineered to keep hair looking its best, no matter the humidity.

INCI	TRADE NAME	FUNCTION	SUPPLIER	%
Water		Vehicle		87.60
Betaine	GENENCARE® OSMS BA	Osmolyte	IFF	2.00
Dipropylene Glycol (and) Polysilicone-29	Silsoft™ CLX-E+	Emulsifier	Momentive	6.00
Water (&) Silicone Quaternium-18 (&) Trideceth-6 (&) Trideceth-12	Silsoft™ Q PMF	Conditioning Agent	Momentive	2.50
Glycerin (and) Water (and) Trifolium Pratense (Clover) Flower Extract	Actiphyte™ Red Clover Blossom GL	Botanical	Lipotec	0.50
Glycerin (and) Water (and) Althaea Officinalis Root Extract	Actiphyte™ Marsh Mallow GL	Botanical	Lipotec	0.50
Phenoxyethanol (and) Ethylhexylglycerin	Esept PE 9010	Preservative	Essential Ingredients	0.90
TOTAL				100%

Mixing Instructions

- Add the components to an appropriate vessel one at a time, mixing until homogenous after each addition.
- **Note:** The solution will become cloudy when the Esept PE 9010 is added, but it will become more translucent as it mixes in.

Appearance: Colorless, slightly hazy, water-thin liquid

pH: 5.72
