Total:		100.000	

Properties

pH = 3.5-4.5

Appearance: Medium thick cream

Looking to refresh your hair without stripping the moisture from those beautiful curls? Then we suggest you bring this co-wash into the shower where it will act as a hair conditioner with cleansing effect. Without those harsh surfactants, this gentle cleanse will lighten up the dirt in your hair while still ensuring a hydrated after feel. Featuring SolAmaze Natural, you can deliver the same performance as silicones while still managing a 'silicone-free' claim. Using a bit of the Arquad PC SV-60 PG, there is also a gentle cleanse while depositing a conditioned after feel.
